## **Lake Park Public Library**

### **LPCSU**

**The Library has no security system to prevent books from leaving the library unchecked other than several cameras in general areas. The loss rate is above fourteen percent and the lack of an efficient inventory control makes it difficult for staff and patrons to locate books and other material in the catalog. The current system of checkout by way of scanning bar codes is outdated and not user-friendly for patrons. There is a significant error rate in checking books under the current system. Patrons welcome a new mode of learning about Library activities that would be interactive to allow them to view current and future activities well as register for desired activities and events while checking out books. In surveys, one of the most frequent requests were that the library enhance security to prevent book thefts and upgrade our circulation process.**

**By upgrading our security with the addition of RF tagging of cataloged items and installing associated detectors at each entrance, we lower our loss rate and make our Library more accessible to our patrons as well as preserve the value of our collection. The navigation to RF tagging will also open the opportunity for the library to expand to additional functions as this technology progresses.**

### **Need**

**Size of the target population. 14000**

#### **1. Who is the target population?**

**Library users including Library cardholders**

#### **2. What are the unmet needs of the target population?**

**Lake Park Public Library**

**LPCSU**

**An efficient method by which to control and reduce loss by theft as well as improve inventory management in order make the Library's collection more accessible to patrons.**

**3. Describe how the target population's needs are not being met by the library or other community services.**

**There is no security system by which to detect books or other items from leaving the library unchecked. The inventory management system is outdated and inefficient. E-blasts, flyers, published announcements and social media alone, do not sufficiently serve our patrons. It can be time-consuming for both staff and patrons to locate a particular book that is listed in the catalog but cannot be found on its assigned shelf because it may be incorrectly-shelved or removed from the library without being checkout to cardholder.**

**4. How does the project relate to the applicant's mission, or to the applicant's long range plan? The core of our Mission is to provide the Community access to all information to fulfill their informational needs. We can only do this if we can provide our collection on demand and without delay of searching for missing items.**

## INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (Telephone Number).
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
