Summary Explanation/Background:

The Town is planning to construct a new drainage system along Lake Shore Drive. The project is expected to include the construction of new drainage inlets, new roadway, landscaping, a storm water pumping station, and other features (including the use of “Green Infrastructure”). The purpose of the project is to improve drainage for the area for years to come. This is the third public outreach meeting for the proposed Lake Shore Drive Drainage system.

The purpose of today’s meeting is to discuss the location of the proposed Bio-swale. An overview will be

provided on Bio-swales. Also, discussion will take place as to why the Bio-swale is planned to be located at the north end of Lake Shore Park.

NOTICE OF PUBLIC MEETING

LAKE SHORE DRIVE DRAINAGE PROJECT – STAKEHOLDER ENGAGEMENT MEETING (Specific to residents and owners at 301, 401, 501, and 801 Lake Shore Drive)

LOCATION OF MEETING: Indoor Pavilion (next to Tennis Courts), 701
Lake Shore Drive, Lake Park, FL 33403

DATE AND TIME: 3:00 p.m., Monday, April 29th, 2019

The Town is planning to construct a new drainage system along the Lake Shore Drive corridor. The project is expected to include the construction of new drainage inlets, new roadway, landscaping, a storm water pumping station, and other features, including an environmentally friendly drainage feature called a “Bio-swale” which is proposed to be located at the north end of Lakeshore Park. The purpose of the project is to improve drainage for the area for years to come, while also beautifying the park and surrounding area.

Please join us for a public stakeholder engagement meeting on April 29, 2019, at 3:00 p.m. The purpose of the meeting is to provide a forum for all interested parties to learn about what is a Bio-swale, and why the Bio-swale needs to be located in Lakeshore Park. It will also explain how the proposed Bio-swale in Lakeshore Park will serve to beautify the park and surrounding area.
